

Project Proposal

Project Title: Scholarship Recommendation System

Objective: The main objective of this project is to develop a software system that helps students find scholarships that match their academic and personal information.

The objectives are:

- To provide students with scholarship recommendations based on their profile.
- To allow scholarship providers to publish scholarship information.
- To make the application process simple and organized.
- To reduce manual work in checking student eligibility.
- To help students track scholarship deadlines and application status.
